### EXPERIENCE

#### SHE CODES WORKSHOPS

MAY 2022-NOV 2022

*Front-end Developer*

*Start Date - Finish Date*

- Collaborated with a group of women developers on 4 pivotal projects - a landing page, vanilla JavaScript weather app, React weather app, and React dictionary app.
- Worked in small teams to implement features, debug issues, and iterate on application improvements.
- Developed proficiency in programming languages such as React, JavaScript, HTML, and CSS.
- Applied newly acquired skills and knowledge to personal coding projects, resulting in tangible products and solutions.

### PROJECT EXPERIENCE

#### RECIPE TRACKER APP (in progress)

Developer

*MongoDB, Express, ReactJS, NodeJS*

- Developed full-stack web app with MERN stack (MongoDB, Express, React, Node.js) including user authentication for secure account creation & login
- Built React front-end with routes for recipe creation, editing, details, and user profiles; implemented forms, validation, uploads

#### AQI QUALITY LEVELS CHECKER

Developer

*Bootstrap, ReactJS, NodeJS, API*

- Developed front-end UI features displaying AQI levels, dominant pollutant details, AQI range chart, and 7-day air quality forecast using React components.
- Integrated OpenAQI API to fetch and display real-time air quality data including minimum/maximum AQI and PM2.5 levels.

#### DICTIONARY APP

Developer

*ReactJS, NodeJS, AXIOS, API*

- Engineered frontend search component in React to query local JSON database of over 50,000 English words.
- Displayed results including definitions, phonetics, images, synonyms, and example sentences fetched from the Dictionary API database.

### SKILLS

HTML/CSS, Bootstrap, JavaScript, ReactJS, NodeJS, Java (early stages), Github, Git/Version Control, Responsive Design

### CERTS

**SheCodes Workshops** *Front-end Developer Certification* **Codecademy** *Learn HTML, CSS, Javascript* **Scrimba** *Front-end Career Path (in progress)*
