SOFTWARE DEVELOPER

As a skilled and passionate **Software Developer**, I have a proven track record of building dynamic web presences from the ground up. My expertise lies in writing efficient, well-designed code using the latest web development best practices. With a commitment to excellence and a dedication to staying up-to-date with the latest industry trends, I am confident in my ability to deliver exceptional results and drive success for any organization.

TECHNICAL SKILLS

HTML & CSS, Javascript, React JS, Node JS, Java (early stages), Github, Git/Version Control, Responsive Design

WORK EXPERIENCE

SheCodes Workshop

Remote

Student

May 2022 - Nov 2022

- Successfully completed SheCode's comprehensive coding program, gaining hands-on experience in building web applications, databases, and APIs using modern frameworks and technologies.
- Developed proficiency in programming languages such as React, JavaScript, HTML, and CSS.
- Collaborated with other women in the technology industry through group projects and coding challenges. Participated in mentorship programs and networking events to connect with industry professionals and expand knowledge and skill sets.
- Applied newly acquired skills and knowledge to personal coding projects, resulting in tangible products and solutions.
- Prepared for successful career entry in the technology industry by gaining valuable technical and interpersonal skills through SheCode's comprehensive workshop and mentorship programs.

PROJECT EXPERIENCE

Dictionary App

Remote

Software Developer

- Developed a dictionary app using React.js, Node.js, AXIOS, and API integration
- Features a database of words, along with images, phonetics, synonyms, and example sentences
- Collaborated with a team of developers to plan and implement new features, debug issues, and ensure code quality

Weather App

Remote

Software Developer

- Developed a weather app using React.js, Node.js, AXIOS, and API integration
- Displays a 5-day forecast with current weather conditions for any city user searches
- Implemented Celsius conversion functionality to allow users to view temperatures in preferred units
- Collaborated with a team of developers to plan and implement new features, debug issues, and ensure code quality
